

# KEMANG ICON

Surprisingly different...

## Introduction

Kemang Icon transforms the urban travel experience with a truly innovative and dynamic home living environment, set in one of Jakarta's most upscale and trendsetting neighborhoods... It is a retreat within the city and is built upon personal preferences and choices. Kemang Icon is where life comes into balance... Where business, healthy living and leisure co-exist effortlessly.

## Location

As Rama Maulana of Destin Asian Magazine puts it... "Everybody's talking about the urban celebration of Kemang and its unrestrained nexus of artists and art galleries, intellectuals and bookshops, and entrepreneurs filling niches of specialty shops, bars and restaurants. It was always a sprawling neighborhood, a byword for the city's privileged living within the confines of lush tropical gardens and lagoon pools and enormous estates. It is a place with a mix of International restaurants, street-side Javanese furniture makers, clubs and bookshops.

Distance from Soekarno-Hatta Airport:  
45 minutes / 35 kilometres / 19 miles

## Accommodation – 12 suites

An exciting place to live, work and play. A breathing space. A space that keeps you connected. That is the concept behind Kemang Icon's eight Courtyard and four Edge Suites – each one-bedded suite is individually designed to create a uniquely personal space, with living area, bedroom and ensuite bathroom. The Edge suite also includes an additional host (butler) pantry. Comfort reaches new heights with detailed touches such as your preferred bathroom scents, accessories and branded luxury amenities such as sumptuous Ploh pillows and duvets. Sink into heaven on this pure, crisp, white cotton bedding generously filled with goose down and feathers.
